

# NURTURE SPACE

Experienced  
SENCo, DHT  
and Trauma-  
Informed  
Nurture Lead

Do you need support setting up a Nurture or Alternative Provision for your SEND learners, who struggle to get their needs met in a mainstream classroom setting (or because provision in a specialist setting is unavailable)?

## I can support you to:

- Plan, develop and create a provision to meet need within your setting, following the 6 principles of Nurture
- Plan a curriculum which is adapted to the relevant SEN areas of need
- Support staff to develop emotional regulation and create a calm, purposeful learning environment which helps these children stay regulated and re engage with learning and narrow gaps
- Support staff to use an approach which is Trauma-Informed and based in neuroscience and child-development and an understanding of SEND
